

EXCUSE ME.

DID YOU DROP SOMETHING?

Dog poop. It's a serious health problem. Why? Because it contains disease-carrying bacteria that can make people sick and can pollute our waters. And because there are 33 million people in California, many of them dog owners. Do the math. Then do this. Pick up after your pooch. Remind your neighbors to pick up after theirs. Good manners, great health policy. Want more tips? Visit www.waterboards.ca.gov/education. Your dog can't help it. But you can.
